## Pulizia / Cleaning / Entretien / Reinigung

Per le parti metalliche consigliamo esclusivamente un panno morbido e alcool asciugando bene dopo la pulizia. Per le superfici laccate, usare panno umido ed acqua con detersivo liquido neutro, non usare solventi, trielina, acetone o ammoniaca.

For the metal parts, we recommend to only use a damp cloth with alcohol and to dry all very well after cleaning. For the lacquered top, use a damp cloth with neutral liquid detergent. Do not use solvents, trichloroethylene, acetone or ammonia.

Pour les parties métalliques, nous recommandons exclusivement un tissu doux et un alcool séchant bien après le nettoyage. Pour le plan vernis, il faut utiliser un tissu humide et un détergent neutre, ne pas utiliser de solvants, trichloréthylène, acétone ou ammoniaque.

Für Metallteile, empfehlen wir nur ein feuchtes Tuch mit Alkohol zu verwenden und nach jeder Reinigung alles gut abzutrocknen. Für lackierte Tischplatten ein feuchtes Tuch mit neutralem Flüssigreiniger verwenden. Keine Lösungsmittel, Trichlorethylen, Aceton oder Ammoniak verwenden.
